

I am horrified that Sinclair Broadcasting would stoop to instruct its affiliate stations to void their usual programming in order to air the pseudo-documentary 'Stolen Honor'. This is part of the under-handed smear campaign that we saw with the Swift Boat For Lying. It does not serve the interests of democracy or of impartial reporting; coming just a few days before the election, it is clearly an electioneering action, which as I understand is illegal.

I urge the FCC to instruct these stations on the illegality of this action and to stop this so-called documentary from being aired. Also, I urge the FCC to scrutinize Sinclair Broadcasting-affiliated stations before granting a renewal of their license. I submit this request as a concerned citizen.

Sincerely yours,
Serafino Garella, MD
